## Application

Suitable to affix carpet tiles, +4mm luxury vinyl tiles (LVT) and woven vinyl onto receptive bases, including:

- Metal raised access floors.
- IOBAC Ezy-Install® Magnetically Receptive Underlay.
- IOBAC Magnetically Receptive Resins.

Approved for installation of carpet tiles, Luxury Vinyl Tiles and woven vinyl from leading flooring brands including Shaw Contract EMEA, Milliken, Balsan, Bolon, Ntgrate, Burmatex, BLOQ, Forbo, Ege Carpets, Tarkett and Desso in multiple projects.

# Description

## For Reusable Flooring That's Hard to Shift, Easy to Lift

MT4+ MagTabs combine dry-tack with magnetism to easily and securely affix carpet tile, LVT and woven vinyl flooring.

They ensure that flooring is easy to remove when needed leaving no adhesive contamination, so that:

- > Flooring tiles can be easily re-used or recycled, contributing to manufacturers' take-back schemes and improving the circularity of flooring materials
- > The sub-floor is kept clean and contamination-free and is immediately ready for the next installation

### Features and benefits:

- **SECURE:** Dual-Grip hold ensure outstanding grip across multiple floor covering types.
- **SUSTAINABLE:** Adhesive-free means flooring can be cleanly uplifted, reused or recycled.
- **CLEAN:** Removal of all VOC related adhesives.
- **FAST:** Simple installation method, flooring is immediately ready for traffic.
- **FLEXIBLE:** Easy uplift for access, repair and design changes.
- **COST-EFFECTIVE:** Base is left clean – minimal rectification needed before next install.
